Parts of a Story: Celebrations!

Months ago Jill and I sat around and talked about this week—Holy Week. We dreamed about every service. We asked how we could we bring the story to life. We wanted you to experience every part of the story of Jesus, while remembering that your story has important parts also.

Too often people feel like their lives are not connected to the story of Jesus. That is just not true! While our culture is much different than that of Jesus' time, and His story is on a huge scale, your story does have similar parts to His. We all experience celebratory moments like Palm Sunday. We all experience intimate moments, like those of the Last Supper. Sadly, we all experience tragic moments, like Good Friday. And finally, we all make choices how we respond to what happens to us. See? Similar stories.

This week we are going to look at the parts of Jesus' story that took place during Holy Week. It was a wild ride as He concluded His work on earth. Every part was important and brought us to the greatest story every told; a story all writers dream of—a true victory over evil. Don't miss this week as we talk about the parts of this story. We have been praying for this week for months, and now we pray that you can be a part of it with us.

God's Peace,

Pastor Will
